Informatics Engineering graduate with a strong foundation in software development and artificial intelligence. Experienced in building applications using Laravel, Next.js, Codeigniter, and creating AI projects with Python and FastAPI through hands-on project. Has proven leadership and communication skills from two years of experience as a Laboratory Assistant and a successful one-year leading as Head Coordinator of the WARGALAB community. Adept at coordinating and managing teamworks.

PORTOFOLIO: [[Portofolio Muhammad Ilham Zakaria](#)]

EDUCATION

Bachelor of Informatics Engineering, Universitas Trunodjoyo Madura (UTM) **2022-2026**
(GPA: 3.86/4.00)

- **Relevant Coursework:** Algorithms & Data Structure, Software & AI Engineering, Project Management, Database Systems.

EXPERIENCES

Fullstack Developer Internship | CV. Purnama Kreatifa **2024-2025**

- Created an integrated goods procurement system for the company's ERP website with Codeigniter framework.
- Analyzed the company's running business processes and designed the team work plan.

AI Research Team | MBKM UTM **2024-2026**

- Developed an Artificial Intelligence program to generate a combination of Batik Nitik patterns using Generative AI architecture and implement the web application with FastAPI and Tailwind CSS

Head Coordinator of Teaching Assistant Community | Informatics Engineering UTM **2024-2025**

- Led the Wargalab community to successfully organize and run laboratory practice activities.
- Coordinated lab sessions and managed the laboratory teaching assistant for the Informatics Engineering Department.

TECHNICAL SKILL

- **Programming Language:** Python, Javascript, C++, PHP, SQL
- **Framework & Libraries:** Laravel, Codeigniter, Node.js, Express, Next.js, React, FastAPI

PROJECTS

E-Procurement System (ERP) **2024**

- Developed a web-based procurement system to integrate and streamline the company's goods management processes.
- Built the application utilizing the CodeIgniter framework, Bonfire, and a PostgreSQL database.

School Management System **2025**

- Streamlined school administrative and academic processes resulting in a more organized experience for student and staff.
- Developed a comprehensive School Management System web application from the ground up using Laravel and Tailwind.

D'Bherunk Cafe Operational Management Platform **2026**

- Developed a web-based point of sale system for D'BHERUNK cafe with a highly responsive and user-friendly interface.
- Built the full-stack application utilizing Next.js framework to handle the dynamic frontend interface and backend API routes.

TrunojoyoAI – Integrated AI Platform **2025-2026**

- Developed an AI program to generate and combine two different Batik Nitik patterns to accelerate batik motif innovation.
- Implemented Deep Learning models using Generative AI models and developed the website API using FastAPI.

AWARDS AND CERTIFICATION

- **BNSP Competency Certificate: Junior Web Programmer** – National Professional Certification Authority, 2024
- **Merit Award** – INTERVARSITY International Technology Innovation Competition, 2024
- **Bronze Medal** – National Science Olympiad (OSN) in Informatics, Regency Level, 2022
