Informatics Engineering graduate with a strong foundation in software development and artificial intelligence. Experienced in building applications using Laravel, Next.js, Codeigniter, and creating AI projects with Python and FastAPI through hands-on project. Has proven leadership and communication skills from two years of experience as a Teaching Assistant and a successful one-year leading as Head Coordinator of the WARGALAB community. Adept at coordinating and managing teamworks.

PORTOFOLIO: [[Portofolio Muhammad Ilham Zakaria](#)]

EDUCATION

Universitas Trunodjoyo Madura , Jawa Timur	2022-2026
Bachelor of Informatics Engineering (<i>GPA: 3.86/4.00</i>)	

EXPERIENCES

Fullstack Developer Internship CV. Purnama Kreatifa	Feb 2025 - Jun 2025
--	----------------------------

- Developed and integrated goods procurement module for the company's ERP system using Codeigniter framework.
- Analyzed current company's workflows and designed strategic team work plan to ensure structured project delivery.

AI Research Team MBKM UTM	Aug 2025 - Jun 2026
------------------------------------	----------------------------

- Developed an Artificial Intelligence program to generate a combination of Batik Nitik patterns using Generative AI architecture and implement the web application with FastAPI and Tailwind CSS

Head Coordinator of Teaching Assistant Community Informatics Engineering UTM	Feb 2024 - Feb 2025
---	----------------------------

- Led Wargalab community with 35+ member of teaching assistant to organize and run laboratory practice activities.
- Collaborated directly with faculty management, lecturers, and students to execute academic events and curriculum updates.

PROJECTS

E-Procurement System (ERP)	2025
-----------------------------------	-------------

- Developed a web-based procurement system to integrate and streamline the company's goods management processes.
- Built the application utilizing the CodeIgniter framework, Bonfire, and a PostgreSQL database.

School Management System	2025
---------------------------------	-------------

- Streamlined school administrative and academic processes resulting in a more organized experience for student and staff.
- Developed a comprehensive School Management System web application from the ground up using Laravel and Tailwind.

D'Bherunk Cafe Operational Management Platform	2026
---	-------------

- Developed a web-based point of sale system for D'Bherunk cafe with a highly responsive and user-friendly interface.
- Built the full-stack application utilizing Next.js framework to handle the dynamic frontend interface and backend API routes.

TrunojoyoAI – Integrated AI Platform	2025-2026
---	------------------

- Developed an AI program to generate and combine two different Batik Nitik patterns to accelerate batik motif innovation.
- Implemented Deep Learning models using Generative AI models and developed the website API using FastAPI.

TECHNICAL SKILL

- **Framework & Libraries:** Laravel, Codeigniter, Node.js, Express, Next.js, React, FastAPI
- **Programming Language:** Python, PHP, Javascript, C++, SQL
- **Databases:** MySQL, PostgreSQL

AWARDS AND CERTIFICATION

- **BNSP Competency Certificate: Junior Web Programmer** – National Professional Certification Authority, 2024
- **Laboratory Teaching Assistant** – Web Development and Data Structures & Algorithms Courses, 2025
- **Merit Award** – INTERVARSITY International Technology Innovation Competition, 2024
- **Bronze Medal** – National Science Olympiad (OSN) in Informatics, Regency Level, 2022
